Policy Relevant Publications

The Centre for NTS studies produces a range of output: research reports, books, monographs, policy briefs and conference proceedings. These materials will also be made available on the Centre's webpage (www.rsis.edu.sg/nts).

Training

Based in RSIS, which has an excellent record of post-graduate teaching, international faculty, and an extensive network of policy institutes worldwide, the Centre for NTS Studies is well placed to develop robust research capabilities, conduct training courses and to facilitate advanced education on NTS. These are aimed at, but not limited to, academics, analysts, policy makers and NGOs.

Networking and Outreach

The Centre for NTS Studies serves as a networking hub for researchers, policy analysts, policy makers, NGOs and media from across Asia and farther afield interested in NTS issues and challenges.

The Centre for NTS Studies is also the Secretariat of the Consortium of Non-Traditional Security Studies in Asia (NTS-Asia), which brings together 14 research institutes and think tanks from across Asia, and strives to further develop the process of networking, consolidate existing research on NTS-related issues and mainstream NTS studies in Asia.
