CLIMATE CHANGE

By Margareth Sembiring

HOW YOU CAN HELP

Shrink your carbon footprint to reduce greenhouse gases.

Drive less. OFF)

Purchase energy-efficient appliances and lightbulbs.

Print less. Download more. Use less water.

Do your part to help improve overall coral reef condition.

Reduce the use of lawn and garden chemicals.

DO NOT dump household chemicals in storm drains.

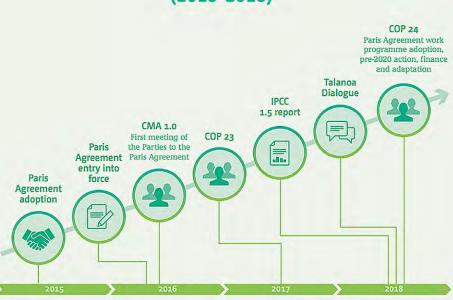

> Choose sustainable seafood. www.FishWatch.com

Volunteer for beach and waterway clean ups.

d Atmospheric Administration, U.S. Department of Commerce, 2018, Infographic: How does climate change affect coral reefs?, http://www.noaa.gov/infographic/infographic-how-does-climate-change-affect-coral-reefs, p. 11

THE YEARLY PROGRESS OF THE PARIS AGREEMENT (2015-2018)

Impacts are immediate and long term, direct and indirect - A weakened coral is vulnerable

United Nations Framework Convention on Climate Change, 2018, UN climate change annual report 2017, $https://unfccc.int/sites/default/files/resource/UNClimateChange_annualreport2017_final.pdf, p. 11$

KEY ELEMENTS OF THE 2015 PARIS AGREEMENT

Temperature goal

the global stocktake tobust transparency and accounting, supported by international review

Mitigation and voluntary cooperation

to achieve them, reporting on progress, and regularly enhancing ambition.

urage action bety and 2020 by all actors, including

and capacity-building

Adaptation and

loss and damage with climate change effects

COP 23: INVESTMENTS IN CLIMATE ACTION

Norway, Unilever and other partners announced a USD 400 million fund to support more efficient agriculture, smallholders and sustainable forest management.

The InsuResilience Initiative announced an additional USD 125 million from Germany to support affordable insurance coverage for a further 400 million poor and vulnerable people by 2020.

Germany, the United Kingdom of Great Britain and Northern Ireland and partners announced USD 153 million to expand programmes to fight climate change and deforestation in the Amazon rainforest.

The European Investment Bank announced USD 75 million for a new USD 405 million investment programme to strengthen the resilience of water distribution and wastewater treatment for 224,000 people living in and around the Fijian capital Suva.

Note: Investments in climate action also contribute to sustainable development co-benefits.

The United Nations Development Programme, Germany, Spain and the European Union launched a EUR 42 (USD 52) million nationally determined contribution support programme to help countries deliver on the Paris Agreement.

\$1 billion

The Green Climate Fund and the

European Bank for Reconstruction

and Development dedicated more

than USD 37 million to the USD 243

million Saïss Water Conservation

making agriculture more resilient.

Project to assist Morocco with

The International Energy Agency, backed by 13 countries announced EUR 30 (USD 37) million for the Agency's Clean **Energy Transitions Programme.**

The World Health Organization, in collaboration with the UN Climate

Change secretariat and the COP 23 Presidency, announced a special initiative to triple the amount of international financial support for climate and health in small island developing States by 2030.

The Ocean Pathway Partnership aims, by 2020, to strengthen

action and funding that links climate change action with healthy oceans through the Convention's process and nationally determined
